

Internet Safety

1. **Less is more** – no account information, private addresses, telephone numbers, birthdates, etc.
2. **Don't give out information about your parents.** Never tell where your parents work or what hours they work.
3. **Privacy** – the internet never forgets. Don't post embarrassing pics and texts about yourself or others.
4. **Username** – Only use your full name when absolutely necessary. For a pen pal exchange, using your first name or a nickname is enough.
