Teil B: Reading Comprehension, Mediation, Language in Use and Writing

I Reading Comprehension

Read the following text about Christian and Carol's new house.

Then answer the questions. You needn't write complete sentences.

A New House

Christian and Carol constructed a tiny house near Glasgow two years ago. The size of their house is only six by six metres but it has got everything that they need. There is a kitchen with a fridge-freezer, a microwave and a dining table. They usually have their meals there.

In the living room next to the kitchen, they can relax on a two-seater sofa, which also is an extra bed for guests. The bathroom has a shower and is opposite the kitchen. A separate toilet room was a must-have for the couple. Upstairs there is a little bedroom with a large comfortable bed, drawers and a wardrobe for their clothes.

The couple went from large to small. Their old home in Glasgow was much bigger. They enjoyed it a lot but they wanted to live a new lifestyle. Another reason was that they spent almost all of their money on rent and had nothing left for free time activities.

The construction process for Christian and Carol's tiny home only took four months. During that time they began downsizing from their old flat. That was not a problem for them. They listed all of their furniture on online marketplaces and gave the rest to their neighbours for free.

1. When did Christian and Carol build their new house?

2. Where do they eat?

3. Where can guests stay?

4. Why was it difficult for them to enjoy themselves in Glasgow after work?

5. What did they do with the objects that they no longer needed for the new house? (*Name one.*)

Now think about the text again and tick the correct answer (*a, b, or c*). There is only one correct answer.

6. Christian and Carol moved to a new house because they ...

a)	hated their old home in Glasgow.	<input type="checkbox"/>
b)	wanted to try something different.	<input type="checkbox"/>
c)	needed more space for their pets.	<input type="checkbox"/>
